Professor W. P. M. Kennedy,

Whiteside, Lake Muskoka.

My dear Professor Kennedy:

I have not yet received the copy of Macleans but I look forward with pleasure to reading it and thank you for the opportunity.

I should have written to you about the N.E.A.but it was only a few days ago that final arrangements were made in so far indeed as they are final. I think they are hoping that you will take a course in Constitutional History or possibly Political Theory. Gunn of the Executive is to find out what number of men will want each definite subject. Milner I think will be able to give more information as I am leaving for England after the middle of the month.

The others who are likely to take courses are MacIver supervising Kemp in Political Economy; Wilson Political Theory; Alexander Sandiford, Hodder Williams on the French Revolution, and probably Pratt on Logic and Psychology. This seems to be a very good send off.

I am glad to say that the Governors agreed to the proposal of the Governors and you get a bonus of 10% on last year's salary. That will mean $200 for you, which is to be paid I understand in July.

Professor Hodder Williams has been made an Assistant Professor in the Department this year, and Professor Wrong thought it was well to defer any action with regard to yourself until later. The

Kennedy, William Paul McClure

Nov. 1917-June 1918

money matter has been, however, attended to as I have just said.

I hope that you are enjoying your summer at Muskoka. The Harvard Review I have not seen. When I return in the autumn I will try and get the reading of it. You must have heavy baggage when you leave for the Lakes with all the books that you are to digest during the summer. Please give my kind regards to your wife,

I am,

Yours sincerely,

President.

Professor Kennedy,

University of Toronto.

Dear Professor Kennedy:

Thank you for calling my attention to the Rittert Journal for October. I am sending for a copy.

With regard to the National Board of Historical Service I think that the new board which has been established by the Government with Dr. Adam Shortt as head and of which Professors Wrong, Colby and others are members is intended to perform similar work for Canada to that performed by the Board at Washington for the United States.

Yours sincerely,

President.

December 6th, 1917

Dear Professor Kennedy:

You were kind enough to offer to lend me Oliver's Life of Alexander Hamilton. My own copy has gone astray and I cannot for the life of me think who has it.

With kind regards, I am,

Yours sincerely,

President.
